GROOMING STANDARDS

1. Grooming is very important for the first impression of a client. We are in the image business. Our clients CARE HOW THINGS LOOK, who else would pay hundreds of dollars to have their home windows or business cleaned? People need to feel very comfortable with a person that they will bring into every room of their home. If you make a good first impression, the homeowner will not be suspicious of you and your work. Our general guidelines for hair are short and clean cut looking. Hair being off the collar and ear is advisable. Look at our managers as an example. A short beard is acceptable. But, unfortunately, many people can grow only a scraggly beard, so to ensure a clean-cut image, we have to say, no unkempt or long beards. Thank you.

2. Pierced body parts, tongue, face, etc. are not allowed while on the job.

3. Visible tattoos and similar body art must be covered during business hours.

4. Clean. We work a physical job. Shower every day. Clean hair. Deodorant. A fresh washed shirt (carry an extra shirt in hot weather) are all absolutely necessary to be accepted in someone's home.

I agree to follow the above grooming guidelines

TEAMWORK

It is important that we all work together as a team. On occasion, especially during the winter, you may be asked to perform non-window cleaning tasks based on need, your qualifications, and manager discretion. Tasks may include sales, computer work, cleaning of office or grounds, maintenance on tools and equipment or anything and everything needed to run a business.

Do you agree to the above? _____

SMOKING

Smoking is allowed only during breaks. In the past we hired smokers who agreed not to smoke during working hours. I have learned that asking an addicted smoker to not smoke (even in his own car during working hours) in an unsupervised environment was a difficult temptation to resist...if not impossible.

I agree not to smoke while working on a job:
